ABOUT ME

I am a junior front-end developer with a keen eye for detail and a passion for creating innovative and engaging designs. I thrive on developing creative concepts and continuously enhancing my skills by tackling exciting and challenging projects. My dedication to producing high-quality, user-centric solutions drives my growth in the field.

STRENGTHS

- Growth mindset with a focus on continuous learning
- Strong problem-solving and critical-thinking skills
- Client-focused approach for delivering quality solutions
- Excellent communication for collaboration and clarity
- Effective both independently and in team settings

LANGUAGES

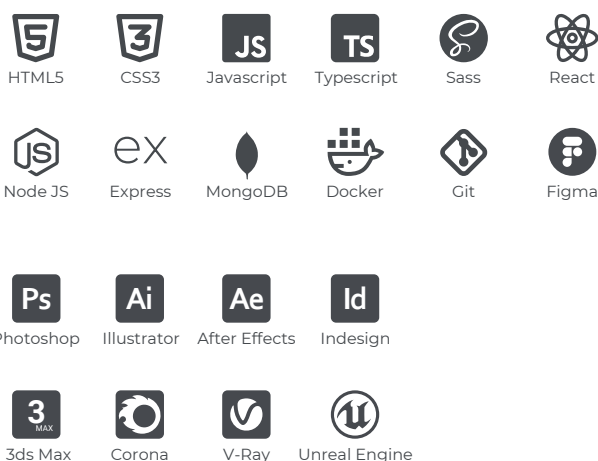

English - Advanced written and verbal communication

MENTOR OPINION

„Patrik is a really hard-working developer who is eager to learn new things and likes to gain insight under the hood when learning a technology. When working on a project, he is reliable, if he takes a task you can be sure that it's in the best hands. I like working with him because he always has deep and relevant questions, so I can feel that he wants to know what's happening in detail.”

- Gábor Hajdu (Mentor@CodeCool)
