ABOUT ME

I am a junior front-end developer with great attention to detail. I enjoy developing creative concepts with a passion for design and improving my skills through interesting challenges.

STRENGTHS

I have a growth mindset with great problem solving skills. Also developed a client-focused approach and excellent communication skills. I am able to work both individually and with team members

LANGUAGES

English
Advanced written and verbal communication

MENTOR OPINION

„Patrik is a really hard-working developer who is eager to learn new things and likes to gain insight under the hood when learning a technology. When working on a project, he is reliable, if he takes a task you can be sure that it's in the best hands. I like working with him because he always has deep and relevant questions, so I can feel that he wants to know what's happening in detail."

- Gábor Hajdu (Mentor@CodeCool)
