ABOUT ME

I am a junior front-end developer with great attention to detail. I enjoy developing creative concepts with a passion for design and improving my skills through interesting challenges.

STRENGTHS

I have a growth mindset with great problem solving skills. Also developed a client-focused approach and excellent communication skills. I am able to work both individually and with team members.

LANGUAGES

English
Advanced written and verbal communication.

MENTOR OPINION

"Patrik is a really hard-working developer who is eager to learn new things and likes to gain insight under the hood when learning a technology. When working on a project, he is reliable, if he takes a task you can be sure that it's in the best hands. I like working with him because he always has deep and relevant questions, so I can feel that he wants to know what's happening in detail."

- Gábor Hajdu (Mentor@Codecool)

HARD SKILLS

| HTML5 | CSS3 | Javascript | Typescript | React | Git | Node JS | Docker |

RECENT PROJECT

DISCOVER THE COSMOS

https://github.com/kvcsPat/react-cosmos.git
This app utilizes NASA's Astronomy Picture of the Day API, an archive which features various images of the cosmos. It allows viewing of not only the current image of the day, but navigation to view the archive of images dating all the way back to 1995.
